SUMMARY

Final-year B.Tech student in Computer Science (Artificial Intelligence and Machine Learning) with hands-on experience in full-stack development, ERP implementation, and AI-based applications. Skilled in Python, Java, Django, and database technologies with experience in software testing, debugging, and system integration. Seeking software engineering opportunities to build scalable products and solve real-world problems.

EDUCATION

CHRIST (Deemed to be University) – Bengaluru, India	2023 – 2027
B.Tech in Computer Science (Artificial Intelligence and Machine Learning)	CGPA: 8.8/10

St. Mary's HSS – Kottayam, India	2021 – 2023
Class XII (Higher Secondary)	Aggregate: 97%

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, Kotlin

Frameworks: Django, Bootstrap

Databases: MongoDB, MySQL, SQLite, Firebase

Tools: Git, GitHub, Streamlit, Postman, Android Studio

Concepts: REST APIs, OOP, SDLC, Machine Learning, NLP, Large Language Models (LLMs)

EXPERIENCE

Software Development Intern	April 2026 – May 2026
<i>Genrobotics Innovations Pvt. Ltd., Technopark, Thiruvananthapuram, India</i>	

- Developed ERP modules to streamline organizational workflows and improve reporting efficiency.
- Integrated software components and supported implementation activities based on operational requirements.
- Participated in testing, debugging, and issue resolution to ensure application reliability.
- Collaborated with engineers and stakeholders to gather requirements and translate them into software solutions.
- Maintained technical documentation to support knowledge transfer and future enhancements.

PROJECTS

LLM-Driven Insider Threat Detection Framework *Python, Machine Learning, NLP, LLMs, Streamlit, SQLite*

- Developed an AI-based threat detection framework to identify suspicious insider activities using email communications and system logs.
- Implemented behavioral analytics and LLM-based risk scoring mechanisms to classify user behavior.
- Built an interactive Streamlit dashboard for real-time monitoring, visualization, and reporting.
- Designed a modular architecture enabling scalability and future feature extensions.

Pet Pantry – Full-Stack E-Commerce Web Application

Django, Python, HTML, CSS, Bootstrap, SQLite

- Developed a full-stack pet e-commerce platform enabling users to browse products, manage carts, and place orders through an intuitive interface.
- Implemented secure user authentication, product catalog management, and database-driven operations using Django and SQLite.
- Designed responsive front-end interfaces using HTML, CSS, and Bootstrap to enhance user experience across devices.
- Performed iterative testing, debugging, and deployment to ensure reliable application performance.
- **Live Demo:** <https://pet-pantry-awdx.onrender.com>

Medical Reminder Application System

Kotlin, Java, XML, Android Studio, Firebase, SQLite

- Developed a native Android application with Firebase integration for real-time data synchronization and SQLite for offline storage.
- Built scheduling and notification modules to ensure reliable medicine reminder delivery.
- Designed user-friendly interfaces to improve accessibility and usability.

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Software Engineering

CERTIFICATIONS

- Government of India Copyright Registration – Research Work
- Introduction to Internet of Things – NPTEL, IIT Kharagpur
- Build Your Own Chatbot – IBM
- Programming for Data Analytics – L&T EduTech

POSITIONS OF RESPONSIBILITY

- Member – Industry Institute Interaction Cell (IIIC), CHRIST University
- General Leader – National Service Scheme (NSS)
- Troop Leader – Bharat Scouts and Guides
- School Representative – St. Mary's HSS, Kottayam
